- Bluetooth and USB connectivity
- Works with Blackberry and Java phones
- Compact and Lightweight design
- Customizable receipt printing
- Battery Operated
- Weights under 9 ounces
- Belt Buckle for greater ease

Lightweight & Portable

Designed for many types of application printing, the lightweight and portable P25 provides reliable, low-cost printing in mobile and wireless environments

Reliable Printing Operation

Manufactured for mobility and POS receipt printing, the P25 is built for demanding applications where reliability and performance are a priority.

Ergonomic Modular Design

The P25 mobile printer has a modular design, built to support an optional 3 track card reader enabling the P25 to read all types of magnetic-strip cards.

Flexible Application Interface

The robust P25 supports mobile application printing over Bluetooth or USB connections which maximizes the return on investment.
